The 2023 World System Integrator Conference, with the theme of "Digital Transformations Make Technology Symphony", invites domestic and overseas speakers to share relevant experiences and future perspectives on two subtopics: 'Digital Technology and Applications to Promote Global Sustainable Development' and 'Digital Transformations to Strengthen International Partnerships and Collaborations'. Experts from the European Bank for Reconstruction and Development (EBRD) will provide relevant information on projects and applicable resources in their respective regional development. In addition, representatives of the Asian-Oceanian Computing Industry Organization (ASOCIO), and selected Taiwan and UK firms are invited to share their first-hand information in the fields of smart lifestyle, smart transportation and data market. And finally, outstanding domestic firms in digital technology and applications together with related industry associations from Thailand and Vietnam will conduct a special panel focusing on smart solutions in these countries. We sincerely invite you to participate in the 2023 World System Integrator Conference (WSIC) !
